## **REQUEST FOR ADDITIONAL INFORMATION**

Dear Borrower & Guarantor,

As part of our periodic review of files, we note through several online articles that the Mexican government may attempt to cease assets of Mr. Salinas and/or assets of some of the businesses which Mr. Salinas owns, because the past due taxes owed are not being paid.

We would like to bring to your attention that Section IV.9 of the Securities Lending Agreement requires that yearly on the anniversary of the Effective date of the loan, you disclose to us in writing whether any such threat exists. To date, we have not received any such notification from you in written form.

We hereby write to notify you that you must yearly on the anniversary of the Effective date of the loan, submit a written attestation of any facts surrounding threatened confiscation or garnishment of property of Borrower or the Guarantor. We also hereby request explanation what if anything is being done to resolve the tax dispute with the government of Mexico and potential confiscation of assets.

Section III.3 of the Securities Lending Agreement requires both the Borrower and Guarantor to voluntarily provide all relevant and material information to Lender and not withhold information deemed to be material. To date we have not received any such information explaining the dispute with the Mexican tax authorities.

Kindly submit in writing an explanation surrounding the threatened confiscation or garnishment.
